Re: Medley Farm Site

Dear Mr. Stewart:

As a follow-up to our telephone conversation on October 11, 1990, I am forwarding to you copies of correspondence the Medley Farm Site Steering Committee received from the Environmental Protection Agency (EPA) on the Phase II Remedial Investigation at the Site. In the letter dated July 25, 1990, EPA granted the extension necessary for performing the Phase II Remedial Investigation. In granting the extension, however, the EPA specifically directed the Steering Committee to begin the Phase II field work the week of August 6, 1990. In the attached letter dated August 10, 1990, EPA also emphasized the importance of keeping this work on schedule. South Carolina Department of Health and Environmental Control staff were copied on this correspondence; however, I realize you may not have seen copies given that you have only recently begun to work on the matter.

I hope you will contact me if you have any questions regarding the work at the Site. We look forward to working with you on this matter.

Sincerely,

  
Mary Jane Norville
